

MageINIC

Price Per Customer

FEATURES

- Tailor prices to craft bespoke deals for each customer.
- Create unique promotions to inspire customer engagement.
- Leverage Magento 2 rest api and graphql support for effortless price customization.

Ultimate Guide for Magento 2 Price Per Customer

The Magento 2 price per customer extension empowers you to provide enticing discounts to your clientele, fostering their loyalty to your e-commerce platform. Furthermore, this extension grants you the capability to control and tailor discounts for your devoted customers, serving as a token of appreciation for their continued support.

- Header and footer link : Display the price per customer link in the header/footer of your website to make it easily accessible to your customers. Provide a brief description of this feature to let customers know that they can receive personalized prices and individualized promotions by clicking on the link.
 - Custom title : Specify a custom title for the price per customer link.
 - Set product price customer wise : Establish individualized pricing structures tailored to each customer's unique needs and preferences.
-

How to install the extension

1. Upload via ZIP/Archive

- Back up your store's database and web directory
- Download the extension zip file and extract the zip file
- Transfer the **app** folder into the **Magento2 root** directory on the server
- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **php bin/magento module:enable MageINIC_Core MageINIC_PricePerCustomer**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

Extension Configuration

To configure the extension configuration, Please go to **Stores** → **Settings** → **Configuration** → **MagelNIC** → **Price Per Customer**.
